

# Joy, Solemnity Mark Easter In Monroe Co.

By Bobby Westbrook  
Daily Record Social Editor

EASTER will begin early in Monroe County. Shortly after the sun rises at 5:43 a. m., dawn services will be held at 6 on many a high hill. Including the community service at the college, on Hawkes Hill, Mount Zion, Kirkbridge.

Even before dawn, many a household will be awakened by small children hunting for their Easter baskets, with the Easter Bunny ranking only second to Santa Claus in producing early reveilles. Older children will have already held their egg hunts at many a rural school and churchyard and, in town, at the East Stroudsburg Playground Jaycee egg hunt today.

Preparations for Easter, whose name is derived from that of an old Teutonic Goddess of Spring, actually began weeks ago when the vernal equinox strengthened the sunlight and unlocked the earth from its prison of ice and snow—whose bars this winter have been stronger and thicker than in many a year.

Easter finery has accounted for the heavy volume of buying in local stores within recent weeks. Despite national reports of a recession, a sampling of opinion from local merchants reveals that sales have been up to normal or slightly above this Spring. Although Easter comes earlier than usual, cutting down on the sale of real Summer wear such as shorts and sport clothes which sometimes swell the pre-Easter buying, the sales of hats and spring coats, suits and dresses, gloves and new pocketbooks, were reported normal.

Peak of the clothing buying came last weekend but sales of shoes, candy and flowers have been booming all week long as school vacations released the children for shopping chores.

For Christians, preparation for Easter began with Lent, the formation of Communicants Classes for children who will become members of the church at Easter. Church choirs have been rehearsing for weeks on the special anthems for the Easter services, on cantatas for Easter vespers.

These preparations were intensified during Holy Week beginning with the triumph of Palm Sunday, and including Holy Thursday services commemorating the Last Supper which Jesus of Nazareth shared with those who had followed Him on His earthly ministry to the meek, the sick, the poor and the sin-burdened of His world.

Yesterday in churches stripped bare of flowers and song, the faithful for three hours recalled the events of His crucifixion, a willing sacrifice for the sins of the world.

To Burst Forth  
The religious observances will burst forth in the triumphant celebration of His resurrection. Some churches have scheduled two identical services, others are bringing in extra chairs to accommodate the faithful—and the faithful-only-at-Easter—people

## Christians Crowd Area Churches

MONROE County Christians—along with the fellow-throughout the world—yesterday jammed area churches for Good Friday services marking the crucifixion of Christ.

Stores, many offices and some businesses closed from noon to 3 p.m. to permit employees to attend the rites.

Most Protestant services used as their theme the seven last words of Christ on the cross with various ministers speaking on each of them.

The tone of all services was solemn, but with anticipation of the joy of the resurrection, which will be celebrated tomorrow. Churches will be overflowing, extra seats will be set up to accommodate annual church visitors.

Solemn themes will be forgotten in the burst of Easter Glory. Thousands of voices will sing the anthem "He Is Risen." Songs of joy from a thankful people.

Amid the religious joy, the ancient customs will invade. Egg hunts, hot cross buns, fashion finery and in some sections, the Easter Parade.

## Cop's Son Is Killed

PHILADELPHIA (AP)—A head-on crash of two automobiles in suburban Berwyn killed one person and injured two others Friday. The dead man is Francis C. O'Connell Jr., 24, son of a Philadelphia police captain.

who call themselves by His Name.

Easter lilies destined for the sick and shut-ins after the services will be implanted by the flowered Easter bunnies and the Easter corsages of the worshippers, each in his Easter best.

Church services will, in many cases, be followed by big Sunday dinners with families reunited for the holidays, and the tables groaning with foods which many have denied themselves during the period calling for sacrifice.

Many will be resuming the parties and plans for weddings and for refreshments after meetings, suspended during Lent.

Easter will end with florists

and salespeople still recuperating from the hectic week of serving customers; with many a small child complaining of stomach ache from too much chocolate eggs and jelly beans; with ministers, pastors and priests exhausted from their exhortations.

A Tide of Joy  
In all of the symbols of Easter, there is a rising tide of joy. Easter lilies bespeak the rebirth of nature after a winter's sleep that resembled death.

Fluffy Easter bunnies, chicks and Easter eggs reflect a tribute to the fertility and regenerative powers of life.

Easter finery and plans for post-Easter parties echo

man's delight in the joys of this burgeoning world.

But for Easter to mean anything, in a religious sense, its symbol must be the cross: A grim reminder that Christ really died, the victim of men's rejection of God's plans, their disobedience to His laws, and man's own inhumanity to man.

The Easter cross, however, is an empty cross. Christians, if their name means anything, believe that Christ really arose from the dead and is a still-living promise that God's love is great enough to encompass even the unworthy. His forgiveness deep enough to pardon the unforgivable; His omnipotence sufficient to clothe the mortal man in immortality.

"For God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish, but have everlasting life."—John 3:16.

## Mr. Decker Dies At 71

ANTHONY Decker, 71, of 237 Washington St., East Stroudsburg, died at 9:10 p.m. yesterday in the Monroe County General Hospital.

Decker, a resident of East Stroudsburg for 45 years, had been in failing health the past six months and seriously ill the past two days.

He was the son of the late Gilbert and Margaret Ketchel Decker and was born in Hawley.

A member of the East Stroudsburg Methodist Church, he was employed by the Peoples Coal Co. until his retirement a year ago.

Surviving is one brother, Lewis Decker of East Stroudsburg.

Funeral services will be held Monday at 2 p.m. from the Lantman Funeral Home. Interment will be in Stroudsburg Cemetery with Rev. Harold C. Eaton officiating.

Friends may pay their respects on Sunday from 7 to 9 p.m. at the funeral home.

## Lenten Meditation

I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live: and whosoever liveth and believeth in me shall never die. (John 11:25, 26.)

The first Easter Day seemed to dawn like other days. People began going about their affairs as usual. The women brought spices to anoint the body of Jesus. The disciples mourned the death of their Lord. And the guard kept watch at the tomb.

But that Easter Day turned out unlike any other day. It was a new day for the world, though only a few saw everything in a new light. The guard had watched in vain. The disciples had mourned needlessly.

The women did not find the body of Jesus in the tomb. Mary Magdalene saw Jesus

alive in the garden. Later, the women saw Him alive as they hurried to Jerusalem. Two disciples saw Him alive at Emmaus, and others saw Him in the upper room.

Ever since then Easter Day dawns to proclaim that Jesus is risen from the dead. He is alive! Sin could not defeat Him. Death could not conquer Him. And He says to us, "Whosoever liveth and believeth in me shall never die."

Prayer: Living Savior, I humble pray Thee for grace to believe that Thou art the resurrection and the life. Grant me so to walk in newness of life that when I die I shall walk with Thee in the presence of the Father. In Thy name I pray. Amen.

Thought for the day—Here speaks the Master of life and death: "Because I live, ye shall live also."

## U.S. Agents Probe Kidnap Plot Of Caroline Kennedy

### Rusk Returns From SEATO; Meets JFK

WASHINGTON (AP)—Secretary of State Dean Rusk returned Friday from a meeting of the Southeast Asia Treaty Organization and reported himself "much encouraged" by the sessions on the Laos crisis.

The secretary was summoned at once to report to President Kennedy at Palm Beach, Fla., where the chief executive is spending the Easter weekend.

Rusk took off for Florida in a rainstorm at 7 p.m., only seven hours after completing his round-the-world jet flight. Before leaving the capital, he talked with Kennedy by phone.

Rusk described the Bangkok, Thailand, meeting of America's Southeast Asian allies as "highly productive."

While Rusk said the SEATO foreign ministers are united in their resolve not to allow a Communist takeover of Laos, he would not go so far as to say he is optimistic over chances for an early and satisfactory settlement.

He said the matter must be tackled step by step, starting with a cease-fire and Moscow has not yet replied to a proposal for a cease-fire and international talks.

The U. S. foreign policy chief, on his first overseas jump in his new job, was gone from Washington a week including attendance at the three-day Bangkok conference and at New Delhi to see India's Prime Minister Nehru.

Rusk looked a bit tired, but otherwise healthy, upon arrival at nearby Andrews Air Force base aboard the presidential jet transport which carried him on the quick trip.

Kennedy and Rusk both eagerly awaited the Kremlin's response to the Laos peace plan which was proposed to the Soviet Union by Britain, March 23. The British plan calls for a cease-fire to be supervised by a three-nation control commission, to be followed by a 14-nation conference on a permanent settlement of the Laos question.

## Dela. R. Compact Legality Studied

WASHINGTON (AP)—The Justice Department said Friday Atty. Gen. Robert F. Kennedy is looking into the constitutionality of the proposed Delaware River basin compact at the request of the House Judiciary Committee.

The compact is before Congress in the form of a proposal for development of the Delaware River Valley under a joint state-federal commission.

The commission would be composed of five persons, four appointed by the governors of Delaware, Pennsylvania, New Jersey and New York, and one appointed by the President.

The House committee requested an opinion from the attorney general on the constitutionality of the federal government entering into a compact with these states in an area where the United States has prime responsibility in connection with navigation and federal lands."

## South Flogged By Rain, Wind Storms, Tornadoes

By THE ASSOCIATED PRESS  
Tornadoes and whistling wind storms flogged the South Friday killing at least one man, injuring dozens and leaving a snarled tangle of damaged property and communications lines.

Worst hit was the little Central Georgia town of Unadilla, where an elderly plumber died in his smashed home when a twister cut an eight-mile path of destruction. The dead man was Jesse Thompson. Thirteen other persons were hurt and the damage to homes and stores was figured at \$500,000.

Ten persons were hurt and about two dozen houses wrecked at Phenix City, Ala., on the Georgia state line when a windstorm that may have been a tornado struck inside the city limits. Three of the injured were hospitalized.

Heavy rains fell all day, in many areas of the South, posing the threat of flooding on top of the tornado and windstorm damage.

Four other tornadoes swooped down in various parts of Georgia, destroying or damaging churches, homes and other buildings. Loss of telephone service made it difficult to check on injuries and damage reports. Brownsville, Centerville, Summerville, Garetta and the Collins-Reidsville areas all were hit.

Another twister struck Folkston.

## Professor Killed In Car Accident

GLEN LOCH, Pa. (AP)—Knox McIlwain, 63, a laboratory manager and former professor at the University of Pennsylvania, was killed yesterday after being pinned in the wreckage of his car which struck a bridge column on Lancaster Pike.

He had been on the faculty of the Moore School of Electrical Engineering at Penn for 18 years.

## Claim Four Cubans Are Behind Scheme

By MARVIN L. ARROWSMITH

PALM BEACH, Fla. (AP)—A reported plot by pro-Castro Cubans to kidnap President Kennedy's daughter Caroline is being investigated by the U.S. Secret Service and Florida area police.

The investigation, it was learned Friday, was started about a week ago. It has resulted in tightened security precautions around the cute blonde 3-year-old, but her normal movements reportedly have not been restricted.

The White House characterized the investigation as strictly routine—similar, press secretary Pierre Salinger said, to many others the Secret Service conducts each year in protecting the President and his family.

Salinger said the President—and presumably Mrs. Kennedy—know nothing about the investigation until he learned of a news dispatch dealing with it Friday.

This Secret Service inquiry began shortly before Caroline came to Palm Beach from Washington last Monday for an Easter holiday at the Atlantic shore home of her grandparents, former ambassador to Britain and Mrs. Joseph P. Kennedy.

Accompanied by Mother Caroline was accompanied from the capital by her mother and the newest member of the Kennedy family, John Jr., 4 months. The President arrived from Washington Thursday.

An informed source said the Secret Service was tipped in Washington last week that four Cubans—described as "pro-Castro and anti-Kennedy"—were reportedly in the Palm Beach area hatching a plot to kidnap Caroline.

This source, who asked not to be named, said neither the Secret Service nor the area police have had any luck in tracking down the Cubans. Descriptive information on the men and the cars they are reported to be using has been supplied to police by the Secret Service.

Salinger was questioned at a news conference about a published report that a police investigation was under way.

"The Secret Service," he replied, "gets information from time to time on the President and his family which requires a routine investigation. There is such an investigation under way."

But Salinger declined repeatedly to say whether the investigation deals with the reported plot to kidnap Caroline.

Says Routine  
"All I want to say," the press secretary added, "is that nothing unusual is going on. This is a routine investigation, the like of

which they (the Secret Service) conduct a number every year. "I am trying to caution you not to write something sensational about a big investigation. This is a routine case being handled routinely."

Secret Service Chief U. E. Baughman, here with the Kennedy family, told a reporter "I will not deny or confirm the reports" about an investigation.

It was learned on excellent authority, however, that Baughman ordered the investigation as a routine precaution. He frequently travels with presidential parties.

## Claims Reds Lead Birch Unit Smears

WASHINGTON (AP)—A congressman called congressional attacks on the rightist John Birch Society Friday part of a "pro-Communist smear." The congressman, Rep. Edgar W. Hiestand, R-Calif., is a member.

Despite Hiestand's description of the critics, criticism continued to mount against the society whose founder once said former President Dwight D. Eisenhower was "a dedicated, conscious agent of the Communist conspiracy."

And a spokesman for the Justice Department said the society's activities have become "a matter of concern to the Justice Department."

In addition, FBI Director J. Edgar Hoover published a statement that implied criticism of the society.

Although some congressmen have called for investigations by the House Committee on Un-American Activities, the Senate Internal Security Subcommittee, and the Senate Government Operations Committee, the chairman of all three bodies indicated they had no plans to investigate the society.

The society was founded in 1958 by Robert H. W. Welch Jr., 61, retired candy manufacturer in Massachusetts.

Welch proclaims the destruction of communism as one of his aims. The society takes its name from a Baptist missionary killed by Communists in China 10 days after the close of World War II.

The death of Birch, Welch says, was "the first casualty in the third world war between the Communists and the ever-shrinking free world."

Cedar Rapids, Iowa (AP)—The flooding Cedar River, striking a multimillion-dollar blow at eastern Iowa, ended its rise here Friday afternoon.

Now a two-day vigil was in store for weary flood fighters to sullen levees protecting this inland city against a breakthrough of dustrial city of 92,000 persons.

Mayor James Meaghan said the river reached a peak of 19.66 feet at 12:30 p.m., dropped to 19.64 an hour later and was expected to fluctuate around that height for 12 hours.

After that, the mayor said, the river should drop rapidly like pulling the stopper out of a bathtub.

The city's flood protection, constructed since the disastrous 1929 flood hit 20.01 feet, strained against the weight of the river. Occasional patching jobs were necessary but levees were holding.

## Claim Four Cubans Are Behind Scheme

By MARVIN L. ARROWSMITH

PALM BEACH, Fla. (AP)—A reported plot by pro-Castro Cubans to kidnap President Kennedy's daughter Caroline is being investigated by the U.S. Secret Service and Florida area police.

The investigation, it was learned Friday, was started about a week ago. It has resulted in tightened security precautions around the cute blonde 3-year-old, but her normal movements reportedly have not been restricted.

The White House characterized the investigation as strictly routine—similar, press secretary Pierre Salinger said, to many others the Secret Service conducts each year in protecting the President and his family.

Accompanied by Mother Caroline was accompanied from the capital by her mother and the newest member of the Kennedy family, John Jr., 4 months. The President arrived from Washington Thursday.

An informed source said the Secret Service was tipped in Washington last week that four Cubans—described as "pro-Castro and anti-Kennedy"—were reportedly in the Palm Beach area hatching a plot to kidnap Caroline.

This source, who asked not to be named, said neither the Secret Service nor the area police have had any luck in tracking down the Cubans. Descriptive information on the men and the cars they are reported to be using has been supplied to police by the Secret Service.

"All I want to say," the press secretary added, "is that nothing unusual is going on. This is a routine investigation, the like of

which they (the Secret Service) conduct a number every year. "I am trying to caution you not to write something sensational about a big investigation. This is a routine case being handled routinely."

Secret Service Chief U. E. Baughman, here with the Kennedy family, told a reporter "I will not deny or confirm the reports" about an investigation.

It was learned on excellent authority, however, that Baughman ordered the investigation as a routine precaution. He frequently travels with presidential parties.

## Claims Reds Lead Birch Unit Smears

WASHINGTON (AP)—A congressman called congressional attacks on the rightist John Birch Society Friday part of a "pro-Communist smear." The congressman, Rep. Edgar W. Hiestand, R-Calif., is a member.

Despite Hiestand's description of the critics, criticism continued to mount against the society whose founder once said former President Dwight D. Eisenhower was "a dedicated, conscious agent of the Communist conspiracy."

And a spokesman for the Justice Department said the society's activities have become "a matter of concern to the Justice Department."

In addition, FBI Director J. Edgar Hoover published a statement that implied criticism of the society.

Although some congressmen have called for investigations by the House Committee on Un-American Activities, the Senate Internal Security Subcommittee, and the Senate Government Operations Committee, the chairman of all three bodies indicated they had no plans to investigate the society.

The society was founded in 1958 by Robert H. W. Welch Jr., 61, retired candy manufacturer in Massachusetts.

Welch proclaims the destruction of communism as one of his aims. The society takes its name from a Baptist missionary killed by Communists in China 10 days after the close of World War II.

The death of Birch, Welch says, was "the first casualty in the third world war between the Communists and the ever-shrinking free world."

## Today's Scripture Lesson Christ, Our Living Lord

By NEWMAN CAMPBELL

THE first day of the week after Christ's death and burial. "Cometh Mary Magdalene early, when it was yet dark, into the sepulchre, and seeth the stone taken away from the sepulchre."—John 20:1.

"Then she runneth, and cometh to Simon Peter, and to the other disciple, whom Jesus loved, and saith unto them, They have taken away the Lord out of the sepulchre, and we know not where they have laid Him."—John 20:2.

"Peter therefore went forth, and that other disciple, and came to the sepulchre. They

both ran together, but the other disciple outran Peter and came first to the tomb.—John 20:3-4.

"Stooping down, and looking in," the disciple saw the linen clothes lying there, but he did not go in. Simon Peter went into the sepulchre, "and seeth the linen clothes lie, and the napkin, that was about His head, . . . wrapped together in a place by itself."—John 20:4-7.

"As yet they knew not the scripture, that He must rise again from the dead."—John 20:9.

Mary stood outside the sepulchre weeping after the two men had gone. "And seeth two an-

gels in white sitting, the one at the head, and the other at the feet, where the body of Jesus had lain."—John 20:10-12.

The angels asked Mary why she wept, and she told them what she had told Simon Peter, that she saw Jesus, but thought at first that He was a gardener. But Jesus said to her, "Mary," and she recognized Him.—John 20:11-16.

Mary told the disciples that she had seen the Lord, and He had spoken to her. That same evening He came and stood in the midst of them, and said, "Peace be with you," and bestowed the Holy Ghost upon them.—John 20:17-22.

One disciple, Thomas, was not with the other disciples when Jesus came to them, and he refused to believe until he had seen the Lord and His wounded side. Then he said: "My Lord and my God."—John 20:24-28.

## Joint Services To Be Held

THE Protestant churches of the Portland area will hold the annual Easter Sunrise service at 6:30 a. m. on Easter Sunday morning, on the top of the hill to the South of Mount Bethel, at the same spot where the service has been held in previous years.

The speaker for the service will be Rev. Forrest Spriggs, pastor of the Portland Baptist Church. The subject of the message will be, "He Is Risen." Music is planned for the service, including a trumpet duet by Kay Ribble and Walter Emory Jr.

# Easter Bonnet

These are the times that try women's souls.

But all the mischief youthful fingers may perform can only fray the nerves and upset the budget.

You can't spoil *Easter*.

For *Easter* isn't frills and finery. *Easter* isn't pride and parading.

*Easter* is the soul's own Life—bright with God's love today—rich with His promise tomorrow.

Its adornment is a world at worship . . . souls at one with the risen Christ . . . fulfilling the ageless quest for the beauty and joy which cannot perish.

#### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# Need For Controls

President Kennedy's plea for congressional action to spur more states to control outdoor advertising along the nation's interstate and defense highways has received the strong backing of the American Automobile Assn.

The association for many years has campaigned for protection of the roadsides, especially those in scenic areas such as the Poconos, against uncontrolled commercial encroachment.

President Kennedy used strong language in stressing the need for billboard control. He said:

"The Interstate Highway System was intended, among other purposes, to enable more Americans to more easily see more of their country. It is a beautiful country."

"The system was not intended to provide a large and unreimbursed measure of benefits to the billboard industry, whose structures tend to detract from both the beauty and the safety of the routes they line."

"Their messages are not, as so often claimed, primarily for the convenience of the motorist whose view they block. Some two-thirds of such advertising is

for national products, and is dominated by a handful of large advertisers to whom the interstate system has provided a great windfall."

Specifically, the President recommended that the deadline for billboard-control bonus agreements between the states and the federal government be extended an additional four years. Under present legislation, the time limit runs out next June 30.

In addition, the Chief Executive recommended that the amount of bonus be raised from one-half of one per cent to a full one percent of the cost of interstate projects.

It is hoped that Congress will see fit to enact the President's proposals into law. And, bringing the matter closer to home, it is also essential that Pennsylvania's lawmakers approve a measure qualifying this state for the incentive bonus.

If Pennsylvania and the other states do not act to control the billboards, the federal government is likely to step in and adopt more direct means of control (meaning, of course, more severe) than are now required by the separate states.

### Idea Of True Justice

Not too many months ago a motorist in Eastern Connecticut sideswiped a state police car, driving it off the road. There followed a hot pursuit with the driver zigzagging all over the road until he was finally caught.

When his record was checked it was found that just a couple of years before in almost exactly the same spot he had collided head on with an innocent motorist who was out driving with his family. The innocent man was killed, leaving a widow and small child.

But when the culprit appeared before the court to be charged with the second offense the defense attorney

pleaded righteously that the man had stayed completely out of trouble ever since he killed his first victim until he nearly killed the state policeman two years later.

Contrast this point of view with that expressed in a recent dispatch from Kingston, Jamaica. According to this story, a chauffeur was recently arrested for driving dangerously and driving while under the influence of liquor. He was fined a few pounds and his license was suspended for 60 years.

Which attitude, we wonder, expresses more completely the idea of true justice? —Hartford (Conn.) Courant

### Saving Lives By TV

David Sarnoff, chairman of R.C.A., is gifted with imagination and prescience. He has now come up with a very useful idea. Let me quote him:

"Through a blend of electronic computation and communication techniques, it would be possible to establish a National Medical Clearing House which could serve as a central repository for all the latest medical information. By a combination of communications circuits, every major hospital and medical school in the country could be tied into this Clearing House."

"If a doctor in a San Francisco hospital sought the source of information on a particular subject, he would simply dial a number. Instantly, a relevant bibliography would flash on a television-like screen before him. Then, when he made his choice of a particular article, he could dial again and get a microfilm version of the article on his screen."

The real point of all this is that knowledge is being accumulated so rapidly even for the specialists to know a subject in

its entirety. Research is done in a thousand places and one place has just reached the moment when something is found that can save a life.

But that something has not yet worked its way into medical literature. Yet this one little fact might give a sick person a few more years of life. The top doctors like the top men in any profession are very busy and hard to get to. Hospitals do not readily interchange staffs.

Nevertheless there is always one man, brilliant, imaginative, projecting his ideas far beyond the moment, who can save a life even by a suggestion. In the critical moments, between life and death, the miraculous does occur, and the miraculous is often a great mind that hits the spot.

This is particularly true in the treatment of cancers about which so much is now known and so many lives are being saved. It takes great resources and superhuman courage to save a life. Sarnoff's proposal will be established because it is logical.

The day may come when an excellent doctor worried about a detail will be able to call a central clearing house to ask who knows about this.

These days, when it is possible to take a plane and be some thousands of miles away, it is not surprising that the application of television to medicine is being considered. The time will come when public demand will require the television companies and the so-called sponsors to use this device for something more than theater, although theater has its place. But does it always have to be murder?

I sometimes wonder if General Sarnoff ever watches television to see the hours frittered away in miserable trivialities surely unfit for his grandchild.

It must be worrisome to think of what can be done with this medium that is not being done and the responsibility for telling the public of its possibilities is up to the television industry. The day may come when this device too will be used to save lives.

Imagine sitting in New York, stating a problem to an expert in London, Bonn or Tokyo and he replies by showing how he handled a similar case — showing it on the television screen. That day will come too.

General Sarnoff's proposal that more color television be used to project knowledge is very valuable. He said: "World-wide television will permit thousands of physicians to sit in on diagnosis and consultation sessions among specialists of many nationalities. Heart specialists in London will be able to examine a patient, display on the television screen his X-rays and cardiograms, and discuss a diagnosis with specialists in New York, Berlin, Paris, Rome, Tokyo, or other parts of the world."

"And through instantaneous electronic translation techniques, which are now in development, the barrier of language difference — as real to the doctor as to the statesman — will be finally surmounted."

What General Sarnoff is really calling our attention to is the need for total utilization of all the developments in science which are now at our disposal. He recognized that such a device as color television may be used for much more than exhibiting the art of Bob Hope or Red Skelton to say nothing of Zsa Zsa Gabor.

Already television is being used to teach many subjects. The time will come when public demand will require the television companies and the so-called sponsors to use this device for something more than theater, although theater has its place. But does it always have to be murder?

I sometimes wonder if General Sarnoff ever watches television to see the hours frittered away in miserable trivialities surely unfit for his grandchild.

### Cuban Reprimanded

By Robert S. Allen and Paul Scott  
Washington — Communist-ruled Cuba is smarting from an unprecedented stinging rebuke by the Inter-American Defense Board.

For the first time in its history, this decade-old agency of the Organization of American States formally voted to censure one of its members, Cuba.

This extraordinary crackdown was unanimous with one exception — Mexico.

Major General Alfonso Gurza

Falgan, Mexican delegate, abstained under standing orders from his government not to vote against Cuba in any clash involving the U.S.

This unprecedented reprimand occurred at an unpublished Washington meeting of the Defense Board to consider the establishment of an Inter-American "war college"—probably in Puerto Rico.

During the discussion, Moleon launched into a characteristic Castro-type tirade against the U.S., highlighted with screaming invectives and insults. Lt. General Manuel Mathewson, who was presiding, ruled the fulminating Cuban out of order. Defiantly, Moleon refused to take his seat and continued bellowing. Thereupon, two Latin American delegates moved that he be formally censured, and he was.

This overwhelming slapdown did silence Moleon. He sat down and said no more.

To Latin American authorities, this unusual backstage incident is highly significant for three reasons:

(1) As strongly indicated by a large majority of Latin American countries have become fed up with Cuba's Communist-motivated tactics of opposing everything advocated by the U.S., regardless of merit and need.

(2) Opening the way for ousting Cuba from the Inter-American Defense Board, on the ground that country is under alien influence and presents a serious threat to the security of the Hemisphere, which the Board was established in 1919 to protect. Deemed most important is the fact that Argentina, Brazil, Peru and Venezuela joined in the censure vote.

For some time, the U.S. has quietly favored ejecting both Cuba and the Dominican Republic from the Defense Board. The Dominican Republic has not sent a delegate to the Board for months.

(3) Giving impetus to plans to bar Cuba from the inter-American conference being held by the UN International Labor Organization in Buenos Aires starting April 10. A number of Latin American unions are opposed to Cuban participation on the ground that it does not have a free labor movement; that Cuban unions are completely government-dominated.

U.S. labor leaders will attend the Buenos Aires parley and support the move to exclude Cuban delegates.

Fidelsm — Latest revolutionary innovation being introduced by Premier Castro and his hard-core Communist economic czar, "Che" Guevara, is plastic coins. They will replace metal coins, and in preparation for this move, Cubans are being told the new money will be "lighter, cheaper and just as good as gold, silver and other metal coins."

In January, Octavio Fernandez, head of the National Printing House, boastfully announced that one new book a day would be published throughout 1961, which he hailed as the "Year of Education." So far, after three months, a grand total of 16 books have been published by Fernandez.

The once highly respected Pharmaceutical College of Pinar del Rio is the latest educational institution to fall victim to the Communist-ruled Castro regime. The college has been taken over by a new board of directors headed by Carlos Cruz, a leftist Castro cohort.

Another Castro-installed labor leader is going to Moscow for "study." He is Alfredo Rancanco, whom Castro made secretary-general of the restaurant workers union.

The ladies — Caroline Kennedy is very content with the White House, her father told an old congressional friend. The charming little three-year-old made the change from her Georgetown home without complaint. "We had no difficulty on that," said the President. "Our problem is keeping her from holding press conferences. She seems to have an unerring penchant for wandering into the press room and holding forth."

Mrs. Perle Mesta, publicized "hostess with the mostest," is storming the Washington social trail again. Following last year's election, when she switched to Vice President Nixon, Mrs. Mesta disappeared from the capital. But now she's back flitting from one affair to another, and dropping hints she will soon stage a big party for her own. At an elaborate Independence Day reception by Greek Ambassador Alexis Lintis, Mrs. Mesta appeared in a shimmering gold suit with a hat of shining stars.

## Coverage In State

Washington — According to Labor Department figures, 1,981,000 workers in Pennsylvania were covered by the minimum-wage provisions of the Federal Fair Labor Standards Act in 1960. An additional 287,000 workers were covered by the state's minimum-wage law. That left 1,227,000 workers not covered either by the federal law or by the state law, out of a total of 3,495,000 in the state. The percentage of uncovered workers was 35.1 percent.

Coverage Issue — Whatever ultimately happens to the minimum-wage bill this year—whether the Administration proposal or the Ayres-Kitchin bill or a compromise between the two eventually is passed—will over half the U.S. labor force will remain unprotected by federal minimum-wage guarantees. According to the Labor Department, the labor force in the U.S. in 1960 was about 70.8 million persons. Of these, only 23.9 million were covered by the federal minimum-wage law.

All others were excluded for one of the following reasons: not personally engaged in an activity involving interstate commerce, or production for interstate commerce (\$1.7 million); not a non-supervisory employee of a private firm (26.6 million, either self-employed, working for the government, or holding a supervisory job); or employed in an industry that was specifically exempted from the minimum-wage law (5.6 million).

## Reports From Congress

### Wage Bill Fight

By Congressional Quarterly

Washington — Cost calculations by businessmen and economic rivalries between sections of the Nation undoubtedly played a major role in determining the outcome of the recent House vote on the minimum-wage bill.

The choice was between the Kennedy Administration's bill and a substitute offered by Reps. A. Paul Kitchen (D.N.C.) and William H. Ayres (R. Ohio).

The original Administration proposal would have raised the minimum wage from the current rate of \$1 an hour to \$1.25 an hour, in several steps, for 23.9 million workers throughout the country. It also would have brought 4,333,000 persons under the act who were not previously covered, and raised them to \$1.25 an hour in several steps.

It was estimated that employers would have to add \$1.7 billion to their annual national wage bill once these provisions went into effect.

The Kitchen-Ayres bill, on the other hand, would raise the 23.9 million already covered workers only to \$1.15, bring in only about 1.3 million new workers and leave their minimum at \$1. The cost of this bill was estimated at \$470 million a year, far less than the Administration proposal.

In the crucial showdown, the Kitchen-Ayres substitute prevailed.

Not only the direct impact on business, but the regional effects of the Administration proposal were thought to have contributed to its downfall in the House.

South lowest newly covered workers under the Administration proposal were confined largely to retail and service trades and in a number of processing industries, wages are far lower in the South, and to a lesser extent in the Midwest, than in the East and West. One reason for this is that the unions find it more difficult to organize in the South, whereas they have the North.

Raising the minimum wage to \$1.25 an hour for a large number of retail and service workers would have the greatest direct wage impact in the South and Midwest; at the same time, it would narrow the wage differentials and prevent lower-wage Southern industries from underselling unionized competitors in other parts of the country.

This regional factor to some extent explains the cohesion of the bulk of Southern Democrats in opposing the Kennedy Administration bill.

Coverage Issue — Whatever ultimately happens to the minimum-wage bill this year—whether the Administration proposal or the Kitchen-Ayres bill or a compromise between the two eventually is passed—will over half the U.S. labor force will remain unprotected by federal minimum-wage guarantees. ## Coverage In State

Washington — According to Labor Department figures, 1,981,000 workers in Pennsylvania were covered by the minimum-wage provisions of the Federal Fair Labor Standards Act in 1960. An additional 287,000 workers were covered by the state's minimum-wage law. That left 1,227,000 workers not covered either by the federal law or by the state law, out of a total of 3,495,000 in the state. The percentage of uncovered workers was 35.1 percent.

# Saving Lives By TV

David Sarnoff, chairman of R.C.A., is gifted with imagination and prescience. He has now come up with a very useful idea. Let me quote him:

"Through a blend of electronic computation and communication techniques, it would be possible to establish a National Medical Clearing House which could serve as a central repository for all the latest medical information. By a combination of communications circuits, every major hospital and medical school in the country could be tied into this Clearing House."

"If a doctor in a San Francisco hospital sought the source of information on a particular subject, he would simply dial a number. Instantly, a relevant bibliography would flash on a television-like screen before him. Then, when he made his choice of a particular article, he could dial again and get a microfilm version of the article on his screen."

The real point of all this is that knowledge is being accumulated too rapidly even for the specialists to know a subject in its entirety. Research is done in a thousand places and one place has just reached the moment when something is found that can save a life.

But that something has not yet worked its way into medical literature. Yet this one little fact might give a sick person a few more years of life.

The top doctors like the top men in any profession are very busy and hard to get to. Hospitals do not readily interchange staffs.

Nevertheless there is always one man, brilliant, imaginative, projecting his ideas far beyond the moment, who can save a life even by a suggestion. In the critical moments between life and death, the miraculous does occur, and the miraculous is often a great mind that hits the spot.

This is particularly true in the treatment of cancers about which so much is now known and so many lives are being saved. It takes great resources and superhuman courage to save a life. Sarnoff's proposal will be established because it is logical.

The day may come when an excellent doctor worried about a detail will be able to call a central clearing house to ask who knows about this.

These days, when it is possible to take a plane and be some

where in a few hours, there is no reason why a life should be endangered or lost because the man who knows is too far away. Nobody is any longer too far away.

General Sarnoff's proposal that more color television be used to project knowledge is very valuable. He said:

"World-wide television will permit thousands of physicians to sit in on diagnosis and consultation sessions among specialists of many nationalities. Heart specialists in London will be able to examine a patient, display on the television screen his X-rays and cardiograms, and discuss a diagnosis with specialists in New York, Berlin, Paris, Rome, Tokyo, or other parts of the world."

"And through instantaneous electronic translation techniques, which are now in development, the barrier of language difference — as real to the doctor as to the statesman — will be finally surmounted."

What General Sarnoff is really calling our attention to is the need for total utilization of all the developments in science which are now at our disposal.

He recognized that such a device as color television may be used for much more than exhibiting the art of Bob Hope or Red Skelton to say nothing of Zsa Zsa Gabor.

Already television is being used to teach many subjects. The time will come when public demand will require the television companies and the so-called sponsors to use this device for something more than theater, although theater has its place. But does it always have to be murder?

I sometimes wonder if General Sarnoff ever watches television to see the hours frittered away in miserable trivialities surely unfit for his grandchildren.

It must be worrisome to think of what can be done with this medium that is not being done and the responsibility for telling the public of its possibilities is up to the television industry. The day may come when this device too will be used to save lives.

Imagine sitting in New York, stating a problem to an expert in London, Bonn or Tokyo and he replies by showing how he handled a similar case — showing it on the television screen. That day will come too.

Imagine sitting in New York, stating a problem to an expert in London, Bonn or Tokyo and he replies by showing how he handled a similar case — showing it on the television screen. That day will come too.

Are those who shamelessly will boast, When they should be ashamed.

## 'Bunny' Arrives At Coleman's

THERE'S a 143-pound Easter egg at the Coleman home at 23 Barry St., Stroudsburg—and more excitement than a circus. It all started when Mrs. James Coleman-Clair, that is—was chosen from the studio audience to be a contestant on "Say When" over Channel 4, New York-Philadelphia, on Wednesday morning.

She had time for just one game against the current champion, a Sgt. Ricks. It was a big one for \$2,500. The object of the game is to select from a group of prizes those whose total value are nearest to the goal without going over.

Mrs. Coleman selected a home entertainment unit of hi-fi, radio and television worth \$1,750; a clothes drier which brought her up to \$2,050; a sewing machine, raising the total to \$2,330; and finally 25 cases of frozen chocolate cream pies to bring her total to \$2,450.

There Mrs. Coleman "froze" too while her opponent went over the goal with a floor scrubber.

So excited she couldn't face the drive home, Mrs. Coleman stayed in New York for yesterday's show. Since it takes two games to make a "champion," she faced Sgt. Ricks again. This time with a goal of \$1,400 she chose an electric range, a fiber glass sail boat, that 143-pound Easter egg and a lot of steak sauce while the sergeant again went over his goal.

Facing a new opponent, a Mrs. Calovich of Wyoming, Mrs. Coleman lost the first game and was in the middle of the second at the end of the program. She will appear again today at 10 a.m.

## Monroe Set To Get Vo-Tech School

Record Harrisburg Bureau HARRISBURG — Monroe County would be served by a resident vocational-technical school that would be established in the northeastern area of the state under a plan for creating such schools on a state-wide basis adopted yesterday by the State Board of Vocational Education.

The plan adopted by the state board brought a specific approach to the realization of a long-discussed method which would provide specialized training in all areas of the state, the State Department of Public Instruction declared following approval of the plan.

The plan was prepared by the department following an exhaustive survey to determine the most feasible method and areas for establishment of the proposed schools.

In the department plan adopted by the state board it was said that the resident school is the only method by which larger, less populated areas may be provided with an opportunity of receiving specialized training. Because of the sparsity of population establishment of schools to serve smaller areas, as is provided for the more populated sections of the state, is not warranted.

Purpose of the specialized schools is to provide training to meet requirements of the so-called "space age" and for persons out of employment to fit them for different vocations, the department said.

Legislative Act It was pointed out by the department that permission to establish schools to make available

able vocational and technical education to high school pupils and to people of all ages is given in a Legislative Act of 1953.

The department did not indicate a specific location for the resident specialized school which would serve Monroe and other counties in the northeastern section of Pennsylvania.

It was suggested that specialized training needs of each area could be met by designating schools to provide courses in occupations having limited employment opportunities in those areas.

Under the plan adopted by the state board high school pupils would attend technical schools half of the time for practical and related work, and would receive their general education at their home schools.

The department estimated enrollment at the school to serve the northeastern counties of the state at from 700 to 1,000 persons.

According to the department efforts will be centered now in procuring support for the specialized training plan from school districts throughout the state.

## Clock Stops And People Have Trouble

IT SEEMS that almost everyone had trouble with their time piece, it's either fast or slow, but the clock on the First Stroudsburg National Bank has been correct to the second twice a day for the past several days. It has stopped running.

Officials of the bank said they do not really know what is wrong but that recent alterations in the second floor of the bank are probably the cause for the failure.

Edward Rahn, Stroudsburg electrician, has been on the job checking out circuits. It is believed that in the alterations one or more of the wires supplying power to the motor of the clock have been disturbed.

Bank officials have set April 1 as the date for the clock to be back in operation.

Possibly the only other clock in Monroe County that has the correct time twice a day is located in the East Stroudsburg Elks Home on Washington Street. Their clock has been pointing to 11 p.m. since it was installed and it will never change.

VALPARAISO University will offer three special programs in the Pocono Mountains late this summer, the university announced yesterday.

The features will be held at Pocono Crest, a resort area of the university located at Pocono Pines.

The first will be a seminar to study the influence and impact modern society exerts upon the Christian and how Christianity can influence modern society. Its theme is "The Christian in the Culture of Today" and is planned for August 14-18. It is under the leadership of Dr. Otto A. This program will include the studying of ways and techniques of improving the church choir through vocal production, diction, and interpretation; conducting; and music selections and repertory. Prof. Norman Hannewald, of Valparaiso Univ., and Edward Klammer of St. Louis will conduct this feature.

Teachers of the primary grades are lucky this year — they won't be in school for April Fool. The kids' jokes are usually anything but subtle, but are often distracting.

It seems as if we used to go to a lot of trouble, though. Making a pan of fudge with red pepper flavoring — rigging up alarm clocks extra-early — or as a final resort making a pie-bed at the end of April Fool's Day.

The older one grows, the less it seems necessary to rig up special aprons for making people look foolish. Seems as if we manage to do that quite easily ourselves, just coping with the ordinary mechanics of living.

Some of my favorite forms of making myself look foolish is to stand fugging at a door that says "Push," calling my parent's telephone number when I mean to dial my own, dialing a number and then forgetting whom I was

### Blue Ridge Fire Co. Aux. Meets In Stroudsburg

Stroudsburg — A donation of \$5 was voted to the Cancer Society at a meeting of the Ladies Aux. of the Blue Ridge Hook and Ladder Co. this week.

Mrs. Grant Knowles presided at the business meeting. Mrs. Violet Meixell, financial chairman, reported 240 members. The next penny supper will be held at the firehouse on May 13.

Hostesses at the meeting on April 25 will be Mrs. Carrie Young, Mrs. Elsie Buskirk and Mrs. Mae Hahn.

Calling with the resultant "guess who opening gambit." Or going to the closet to get something there, unable to remember what it was. Or getting to the check-out counter with a big grocery order all checked and discovering my wallet was on the desk at the office.

Then, of course, there are the times I get stuck in a snow storm with no boots or leave the car windows open during a hard Summer shower. Briefly I've decided I don't need a special day. April Fool! Sure. Also January, February, March, May and so on.

## Faces Emile Griffith

# Paret 7-5 Choice To Retain Crown

By WHITNEY MARTIN  
Associated Press Sports Writer  
MIAMI BEACH, Fla. (AP) — Benny (Kid) Paret puts his world welterweight title on the line against Emile Griffith in a 15-round battle in Convention Hall Saturday night, with endurance expected to be a decisive factor.

The champion is rated a 7-5 favorite, with the chance it might come down to 6-5 or even money before the opening bell. Promoter Chris Dundee expects a crowd of 5,000 but has revised downward his prediction of the gate to \$25,000. He had expected a \$30,000 gate.

The bout will be televised nationally over the ABC network starting at 10 p.m. (EST). The

fighters will weigh in at 11 a.m. Saturday, and neither anticipated difficulty in making the 147-pound limit.

**Experience Edge**  
Any edge Paret has is concealed based on his greater experience, his ability to absorb punishment like a sponge and still keep coming, and the fact he twice has gone the 15-round route while his New York opponent never has gone beyond 10.

Griffith is recognized as the superior boxer, but whether he has the punch to put away the durable Cuban is problematical. The challenger, a superbly built athlete with broad shoulders, narrow waist and race-horse legs, has won only seven of his 24 fights by

knockout, but his co-manager, Gil Clancy, says that record is misleading.

**Can Take Punch**  
"These men he has been fighting," Clancy points out. "They take it. Who else has been knocking them out?"

Paret's knockout record is even less impressive. He has stopped only 10 of his 45 opponents, and those chiefly by his constant attack which finally wears them down to a nubbin.

Neither man has been knocked out. Paret has lost eight decisions, the most recent to Gaspar Ortega last Feb. 25. Griffith has lost twice—to Randy Sanky in 1959 and to Denny Moyer in Portland, Ore., last year.

**NEVER TOO YOUNG**—Little John Logan, four-year-old son of Milwaukee Braves shortstop Johnny Logan, makes like a pitcher as he plays catch with his father before the game with Kansas City Athletics in Bradenton, Fla. When the game began the youngster went to the stands with his mother while daddy took his position in the Braves infield. Milwaukee won, 8-2. (AP Wirephoto)

## 1,451,998 Shares

# Sale Of Braves' Common Stock Planned By Perini

WASHINGTON (AP) — Perini Corp., Framingham, Mass., owner of the Milwaukee Braves Baseball Club, Friday asked government clearance to make a public offering of 1,451,998 shares of its common stock.

Perini primarily is a construction firm but owns 98.88 per cent of the Braves. The shares which the corporation proposes selling would represent interest in all of the firm's operations including the ball club.

Of the total number of shares which it proposes to sell, 1,350,000 would be offered by the company and 101,998 shares by present owners.

**No Price Announced**  
In a statement filed with the Securities and Exchange Commission, the company said the price at which the shares would be sold

would be announced later. However, Perini indicated the maximum would be \$13 a share which would bring in about \$19 million. In its proposed prospectus, Perini said it had a net income last year of \$1.5 million, or 49 cents on each of the 3,031,089 shares now outstanding.

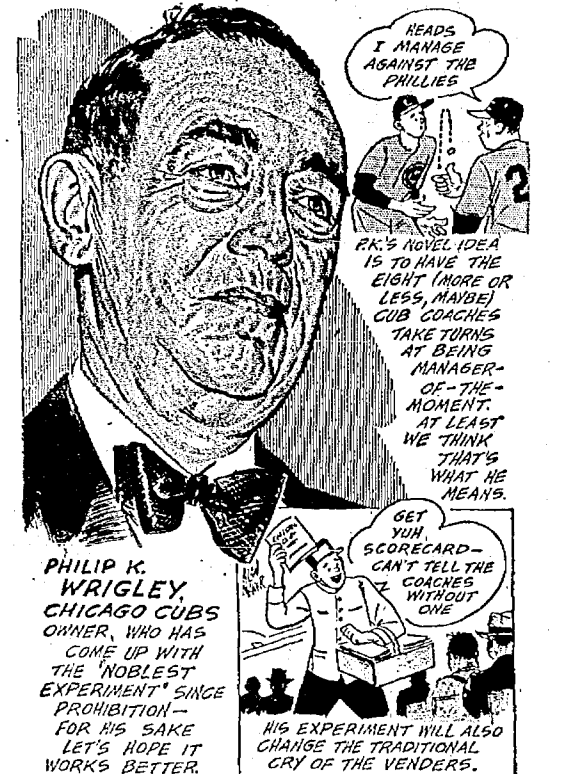

The corporation said the gross profit of the Braves last year was \$569,935. Operating revenues of the club were listed at \$5,217,224 and expenses at \$4,647,289.

Perini reported that revenues from construction operations last year totaled \$134.2 million while other income, including that from baseball operations, amounted to \$1.4 million.

"The sale by Perini Corp. of its common stock . . . is one part of an over-all financing program to provide for its expanding volume of business," the prospectus said.

## Chicubs Add Tape Recorder

MESA, Ariz. (AP)—And now a tape recorder has been added to the electronic arsenal of the Chicago Cubs, who this season will be guided by a board of coaches and an IBM machine.

Just before Wednesday's 8-0 Cub loss to San Francisco, rookie catcher Dick Bertell was scratched from the starting lineup and veteran Sammy Taylor's name inserted.

Bertell was summoned to sit next to Coach El Tappe, former catcher and a ranking brain of the managerless Cub strategy team. Next to both was a tape-recorder. Tappe's comments were recorded on every field situation as it developed. Furthermore, the tape was replayed during a postgame meeting of the nine Cub coaches. This permitted other coaches to add their own comments.

## Narleski Says No Minor Team

HADDONFIELD, N. J. (AP) — Ray Narleski, home from the Detroit Tiger training camp after a dispute with personnel director Rick Ferrell, said Friday he has no intention of rejoining the club unless he is assured of major league status.

"I won't go back to the minors," said the 32-year-old pitcher.

The veteran right-hander stalked out of the Tigers' camp Thursday, claiming the Tigers wouldn't tell him whether or not he had made the club. He asked that he be restored to the Detroit roster and been given a major league contract.

## Rain Halts Azalea Open

WILMINGTON, N. C. (AP) — Rain washed out the opening round of the \$12,000 Azalea Open Golf Tournament Friday, and set up a 36-hole closing schedule Sunday. The 34-hole tournament will open with a single round Saturday.

About two-thirds of the field of 87 was on the Cape Fear Country Club course when officials called a temporary halt in play. After a wait of about 45 minutes, during which winds and rains continued unabated, they called off the round, washing out all scores, and ordered a fresh start Saturday.

## Red Wings Can Clinch Ice Berth

By THE ASSOCIATED PRESS  
Detroit Coach Sid Abel is confident his fired-up Red Wings will defeat Toronto Saturday night and clinch a berth in the championship round of the National Hockey League's Stanley Cup playoffs.

"We play pretty well on Toronto ice and I see no reason why we should change now," he said after sending his charges through a short skating session Friday.

The underdog Red Wings split the first two games in Toronto and then won the next two in Detroit to take a 3-1 lead in the best-of-seven competition. If the Maple Leafs win Saturday night, the sixth game will be played in Detroit Sunday. The seventh, if necessary, will be in Toronto Wednesday.

**Better Position**  
The Montreal Canadiens, the only Canadian entry in the playoffs, are in much better position than the Maple Leafs. Tuesday night's 5-2 victory in Chicago evened their series with the Black Hawks at 2-2 with the fifth game Saturday night in the Forum where the flying Frenchmen are always tough to beat.

"I don't know to what extent our injured men will be back," said Montreal Coach Toe Blake. "Injuries could play an important part, but to be called a good team you have to win in spite of everything."

## Ingo Disputes Referee's Count

LONDON (AP) — Ingemar Johansson returned to Europe Friday claiming he was wrongly counted out in his world title fight against Floyd Patterson.

Talking to newsmen at London airport about the punch that ended the fight at Miami Beach, Fla., 18 days ago, the Swedish heavy-weight boxer said:

"I was up before the count reached 10."

Johansson had not disputed the decision of Referee Billy Regan previously. Prior to Friday he had said he thought he was up in time and was sorry to find he wasn't.

## Athletics Buy LA Pitcher

WEST PALM BEACH, Fla. (AP)—The Kansas City Athletics purchased Ed Rakow, a 24-year-old right-handed pitcher, from the Los Angeles Dodgers Thursday for \$40,000.

Rakow had a 12-6 record last year with Spokane of the Pacific Coast League. He appeared briefly with the Dodgers last season, winning none and losing one.

## Ike Enrolls In Golf Society

LONDON (AP) — Gen. Dwight D. Eisenhower, just about as keen an amateur golfer as anybody in the world, joined the Golf Society of Great Britain Tuesday and promised he would be over soon to play some of the country's famous courses.

News that the former President plans a golfing trip to Britain came at a golf society lunch in honor of its 2,000th member—the duke of Norfolk.

The last time Gen. Eisenhower came to Britain was in 1959. He was president of the United States then and on a goodwill swing through Britain but took time off to play the Turnberry course in Scotland.

## Senators, Redlegs Win

POMPANO BEACH, Fla. (AP) — The Washington Senators rapped out 15 hits and walloped the Kansas City Athletics, 13-3, before 1,049 customers Friday.

## Long Fence May Help

# Gordon Hopes K. C. Can Finish In First Division

Another in a series on major league team prospects.

By JACK HAND  
Associated Press Sports Writer

WEST PALM BEACH, Fla. (AP) — Joe Gordon talks hopefully of a first division finish for the Kansas City Athletics who were last in 1960 and never better than sixth since the Philadelphia days. Although his first division means fifth place in the expanded 10-club American League, it looks like a long uphill struggle for the A's.

With Gordon as manager, Frank Lane as general manager and a new owner in Charles Finley, the A's are anxious to show they mean business. The club never has been a factor in the race since the old days in Philadelphia.

**Pitching Key**  
"It all depends on our pitching," said Gordon who split the 1960 season between Cleveland and Detroit. "We are pretty well set at the other positions. Our bench is better. We will score some runs. The kid at shortstop (Dick Howser) could be the big thing."

"But pitching is our real need. It all comes down to that. We have made some changes in our ball park that should help. They moved the left field fence back about 30 feet so that it now is a respectable distance for a home run."

Bob Elliott, who batted the 1960 A's, had to use either Bud Daley or Ray Herbert in 74 of the team's 154 games. The two solid pitchers of the staff may have to work even harder in a 162-game schedule.

Daley (16-15) and Herbert (14-15) are the only established starters. Dick Hall (8-13), Jim Archer (11-12 at Miami), Norman Bass (6-11 at Sioux City), and Ken Johnson (5-10) are other possibilities.

**Five Ex-Yankees**  
Five ex-Yankees will be in the starting lineup. The main changes from last year are Howser (.338 at Shreveport) at shortstop and an entirely new catching staff.

Kansas City acquired catcher Joe Pignatano (.235) from Los Angeles and added Heywood Sullivan (.161 at Boston) and Clint Courtney (.227 at Baltimore).

The infield will have Marv Throneberry (.250) at first, improved Jerry Lumpe (.272) at second, Howser at short and Andy Carey (.234) at third.

Norm Siebern (.279) is back in left field. Bill Tuttle (.256) is in center and Hank Bauer (.275) in right.

Al Lakeman, former big league catcher, will manage the Durham Bulls in the Carolina League this season.

## Wall Leaves Golf Tour With Injury

HONESDALE, PA. (AP) — Art Wall, Jr., sidelined with a rib injury, conferred with his doctor Friday on whether he could play in next month's Masters golf championship at Atlanta, Ga.

Wall, Masters winner in 1959, couldn't participate last year because of a knee infection.

The ace golfer's wife said he hoped to have a definite decision within 24 hours.

## O'REE MAKES GRADE

BOSTON (AP)—The parents of Willie O'Ree, first Negro to play in the National Hockey League, traveled from Fredericton, N. B., to Montreal to see their son play. O'Ree is a left winger for the Boston Bruins.

BRADENTON, Fla. (AP)—The Milwaukee Braves beefed up their pitching staff at the expenditure of two surplus infielders Friday, trading Andre Rodgers and Daryl Robertson to the Chicago Cubs for Moe Drabowsky and Seth Morehead.

Manager Charlie Dressen acknowledged that although the Braves gave up "practically nothing" in the trade, he hopes to make a starter out of Drabowsky and bulwark the bullpen with Morehead.

**Good Minor Mark**  
Both pitchers have had indifferent success with the Cubs, but when Drabowsky went down to Houston in the American Association last season he won five games without a loss and compiled a 0.90 earned run record. The right-hander is 25 with a lifetime record of 32-41 in the majors and an ERA of 4.02.

Morehead, 26-year-old left-hander, was 2-9 last year with Chicago but had a respectable 3.95 ERA.

Rodgers, a utility man obtained last fall from the San Francisco Giants in trade for Al Dark, hit .244 in 1960. Robertson, a shortstop on the Jacksonville roster in the Braves' Sally League farm, hit .251.

## West NBA Finale On TV Today

ST. LOUIS (AP) — There'll be no fooling at Kiel Auditorium Saturday on April Fool's day.

The Los Angeles Lakers and the St. Louis Hawks, all tied up at three games apiece, meet in a nationally televised game to decide the National Basketball Association's Western Division championship.

The winner then will board a plane for Boston for pro basketball's "World Series" against the well-rested Celtics the following afternoon.

**Must Stop Baylor**  
The Hawks' chief worry, of course, 6-foot-5, 225-pound Elgin Baylor, the No. 1 Laker in more ways than one. Elgin has scored 221 points, an average of 36.8, and come down with 97 rebounds, an average of 16. Baylor tops both clubs with 38 assists.

He's been a one-man gang, as the Hawks are quick to attest. "On the other side of the ledger—the side the Lakers look at—is Bob Pettit, the Hawks' frontline wonder. Bob, an all-around player of the Baylor mould, lends St. Louis in points and rebounds. He has scored 221 points, an average of 28.3, and picked off 112 rebounds—tops for the two teams."

This year it could be just the opposite with the hitters getting the play.

## Bow Group Has April Home Shoot

The club has participated in two Inter-County Conference shoots this season and will fire again April 9 at Slatington.

The scores of the meets will not be compiled until after the Slatington shoot.

The Pocono club has scheduled a work meal April 8, to get its range ready for the first home match.

The Inter-County schedule: April 2, Slatington; April 23, Pocono; May 7, West Penn; May 21, Isaac Walton; June 4, Bowmanstown; June 18, Blue Ridge; July 2, Slatington; July 16, Pocono; July 31, West Penn; August 13, Isaac Walton; August 27, Bowmanstown; September 10, Blue Ridge; September 24, Slatington; October 8, Pocono; October 22, West Penn; November 5, Isaac Walton.

## Bangor Track Coach Wants Night Meet

CHARLES SANDWICK, Bangor High School track coach, has proposed a triangular night track meet between Bangor, Pen Argyl and East Stroudsburg at Bangor, sometime in May.

Sandwick's idea is an excellent way to promote high school track, one of the fastest growing sports in the Pennsylvania Interscholastic Athletic Assn.

Since high school track meets are held on schoolday afternoons, it is almost impossible for any adult spectators to attend them. A night meet would allow adults to attend, which would add greatly to the gate receipts for a sport that is extremely difficult to finance.

Since the only school in the Pocono-State Belt area with track teams would be competing, the meet would decide the regional championship. A suitable trophy might be given to the winning team.

## Could Be Expanded In Future Years

If such a meet is successful there is no reason why it could not be expanded in future years, to include area schools that form track teams.

Sandwick's plan is to hold the meet on a Friday or Saturday night. This would mean that none of the participants would miss any classes, which should be a goal of all high school athletic event scheduling.

If the faculty managers and track coaches of the three schools involved met soon after the Easter Vacation, the meet details could be ironed out quickly and a date set.

## A Simple Matter of Date Switching

The teams are scheduled for separate meets so it might be only a simple matter of switching dates to fit in the night event.

Football and basketball have grabbed the spotlight in high school athletics for years. They have attracted adult spectators because most of the games are played at night or on Saturday afternoon.

The wire service selects all-state teams in both sports but track is usually delegated to an out of the way corner of the sport pages.

A night meet, such as the one Sandwick proposes, would give track a chance to show off and could be arranged with only a minimum of work.

## Sees Improved Hitting

# Cavalier Coach Feels Team Will Improve '60 Showing

EAST Stroudsburg High School will open its baseball season with letter-winners in all but two positions but coach Jim Wertheiser is hesitant in making a prediction about his Cavaliers' chances in the Lehigh-Northampton League.

Wertheiser makes what he hopes is a safe assumption when he says, "I feel sure we will improve last year's showing."

Last season the Cavaliers had a 1-11 overall mark, beating only Port Jervis. East Stroudsburg finished last in the Lehigh-Northampton league and had trouble with its hitting. The Cavaliers were the victims of one no-hitter and several low hit games. The team batted only .197 on the season. However, Wertheiser still produced a fairly respectable defensive team.

This year it could be just the opposite with the hitters getting the play.

**Intra-Squad Game**  
Wertheiser put his club through an intra-squad game Thursday and was impressed with the hitting.

"Of course, the pitchers weren't throwing any breaking stuff," he said, "but the boys were connecting regularly."

Wertheiser has 35 candidates out for the team and will reduce the squad to 25 shortly after Easter vacation.

**No Letterman**  
Shortstop is the only other non-veteran spot. Bill Possinger, who earned his letter at Stroud Union last year, before transferring to East Stroudsburg, and Jack Van Horn, a sophomore, are the top shortstop candidates.

Sophomores and juniors will carry most of the Cavalier load. Only two freshmen, Doug Hill and Reese, shortstop, appear likely to help Wertheiser. The only seniors on the club are Talasz, Michaels, Possinger and outfielder John Clifton.

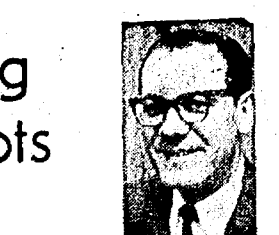

**Mantle Out With Injury**  
ST. PETERSBURG (AP)—Mickey Mantle will be out of the New York Yankees lineup for two or three days due to a strained abdominal muscle.

## S-burg Lions Hear Debate By Five Eastburg Students

FIVE East Stroudsburg Area Joint High School students debated consolidation of East Stroudsburg and Stroudsburg at Tuesday's dinner meeting of the Stroudsburg Lions Club at the Penn-Stroud Hotel.

Taking the affirmative side were Thomas Whittaker and Alan Reeder, while the negative side was discussed by Robert Whittaker and James Heatherington. Moderator for the debate was William Stine.

At the close of the debate, club members voted on presentation of the arguments and agreed the affirmative side won.

Whittaker and Reeder pointed out that the twin boroughs have

## Tobacco Industry Researches

NEW YORK — The Scientific Director of the Tobacco Industry Research Committee yesterday suggested three research steps to help clear up the unanswered questions about smoking and health.

Dr. Clarence Cook Little, in his 1960 annual report, proposed these steps for medical researchers:

Determine whether cancer can be produced in animal tissue by applying "whole" smoke. In experiments where animals inhaled whole smoke, lung cancer has not resulted.

Improve and broaden statistical investigations by obtaining information through direct medical examination, instead of by questionnaire; and by collecting information on personal characteristics and habits other than just smoking.

Improve and agree upon methods of classifying the major types of lung cancer. This would make studies of the disease and relative rates more meaningful. Some reports have associated smoking with one type of lung cancer, but not with another.

"The one hard fact we must face up to is that there is so much more to find out," Dr. Little said.

**Too Many Bands**

WARSAW (AP)—The ponderous Communist paper Trybuna Ludu complains there are too many Polish jazz bands with such names as "The Jazz Rockers," "Zabielginski's Swingtet" and "The Six Grojec Trumpets." It says they might as well change the name of the club where they play, "Stodola," to its English equivalent, "The Barn."

## Worship On Good Friday

PHILADELPHIA (AP) — Multitudes of Christians turned to their places of worship in Pennsylvania on Good Friday, raising their voices in a misery which is the prelude to the glory of Easter itself.

Even the impious fell silent, and business missed a few beats as the devout, representing every branch of the faith which professes to follow Jesus, sorrowed anew at the crucifixion.

The cross, once the symbol of

ignominious death and now the shape of the passion endured by the Son of man, dominated many a scene in the state. Lights were turned on in the form of the cross in the larger cities. And the sign of the crucifixion was raised on hillsides, in parks and public squares, and on secular buildings.

Although Good Friday just misses being a full holiday, it is a lesser one in Pennsylvania and in neighboring New Jersey. Banks, most courts and public offices

were closed, and certain industries made a long weekend break. Stores and shops everywhere shut down for at least three hours in the middle of the day, facilitating church attendance by employees and shoppers.

It was from noon to 3 o'clock that many thousands crowded into churches and chapels, to share in services.

At the request of a joint committee of Roman Catholics and Protestants, organized as the Citizens Good Friday Observance committee, Philadelphia's Mayor Richardson Dilworth issued a proclamation asking all people to partake of the day's inspiration.

The ancient office of Tenebrae was observed at the Roman Catholic Cathedral of St. Peter and Paul, Archbishop John J. Krol presiding.

Tenebrae is a service in the last three days of holy week and of the 40-day season of the Lenten fast, which ends Saturday night. In the service, candles are put out ceremonially as part of the symbolism of the darkness that fell upon the earth as Christ died.

The weather, which through most of Holy Week has been pleasant, is expected to be less so on Saturday. Forecasters say that rain — perhaps even a little snow in mountain areas — and cool temperatures are likely Saturday. The outlook for Easter itself appears more promising. Warmer, drier weather with some sunshine may prevail.

That was good news to the many who plan sunrise services Sunday, including the Moravians of Lancaster and Lehigh counties where rituals are more than 200 years old.

The Moravians herald Easter morn with trombone choirs and with ensembles chanting "The Lord is risen, the Lord is risen indeed." They gather in their graveyards — called God's acre — intoning litanies and facing the east, hoping for a bright sunrise, symbolizing Christ's resurrection.

While their elders are engaged in serious reflection, the children of every branch of Christendom will be thinking about Easter eggs and rabbits and chickens. Egg hunts are a delight of the weekend, most of them intimate little family affairs, some of them community projects.

## Penn State To Offer News Course

UNIVERSITY PARK, Pa. — High school students have pride in their newspapers and yearbooks, and put forth a great deal of effort in producing publications which reflect favorably on their schools.

Unfortunately, facilities are seldom available for training of school journalists, a situation which Penn State's School of Journalism is gradually overcoming with its annual Communications Institute for High Schools.

The 1961 institute, to be held June 25 to 30, will deal not only with newspapers and yearbooks, but has been broadened this year to cover activities in radio and television as well.

Staffed by Penn State faculty members, the institute will offer consideration of news and editorial writing, advertising, photography, and production for newspaper staffers; photography, writing, editing, layouts, production, and business management for yearbook personnel; and announcing, programming, news and public affairs, production, and continuity for those in radio and television.

In addition to the educational benefits, the institute will provide an opportunity for a work-and-fun vacation in a collegiate atmosphere.

Further information may be obtained from the Conference Center, The Pennsylvania State University, University Park, Pa.

## Middle East Power Struggle

LONDON (AP)—Reports of unrest and struggles for power in the explosive Middle East reached the government Thursday from three Arab nations—Iraq, Jordan and Yemen.

Authoritative reports told of an armed clash in Iraq that left at least seven dead, a struggle for control of King Hussein's army in Jordan and an attempt to assassinate the old king of Yemen.

Taken together, the incidents formed a picture of plotting and counterplotting with positions of power seemingly the prize in each country.

## Red Boss Stays Away

BELGRADE, Yugoslavia (AP)—Communist Albania's party boss stayed away from Moscow's Warsaw Pact conference this week because his support of Red China in its dispute with Soviet Premier Khrushchev made him fear for his life, a diplomatic source said yesterday.

A performance by Enver Hoxha, secretary general of the Albanian party, at Moscow's conference of world Communist leaders last November, sent Khrushchev into a towering rage.

## Justice Left In The Dark

TAIPEI, Formosa (AP)—Justice was left in the dark yesterday because the courthouse failed to pay its electric light bill.

The Taiwan (Formosa) Power Co. cut off the electricity, complaining a bill of \$750 was unpaid. Business of the Supreme Court, Formosa High Court and Taipei District Court was virtually paralyzed.

Judges and clerks groped in the cavernous old three-story building by candle light. The lights went back on Tuesday night after \$250 was scraped together as a down payment on the overdue bill.

Pale and shaking with anger, Khrushchev was said to have shouted: "Comrade Hoxha, you have poured a bucket of dung on me, and you will have to wash it off."

The source for this story, a foreign diplomatic representative in Belgrade, said Khrushchev was provoked to spitting anger when the Albanian called him a traitor to Communist doctrine, a weakling and a revisionist. The latter is the most violent epithet one Communist can toss at another. It is the word Moscow uses for President Tito.

The cause of the trouble was Red China's insistence that Khrushchev has been wrong in his approach to the idea of peaceful coexistence. The Red Chinese, too, claim to favor peaceful coexistence. The Red Chinese, too, claim to favor peaceful coexistence, but they challenge Khrushchev's position that war no longer is inevitable.

The Chinese insist peaceful coexistence does not mean Communists should avoid the risk of war, since war with the capitalist world by Leninist doctrine would be inevitable anyway. Khrushchev, more cautious, contends Soviet power will make the capitalist world afraid to provoke a war.

Staudenmeier granted a commonwealth petition that police witnesses in the cases not be sequestered during the trials. Other witnesses are to be sequestered. The commonwealth has threatened to withdraw from the case if three separate trials are held simultaneously as the judge directed earlier this week. It maintains that Friedberg alone is familiar enough with all details of the crime to prosecute. Filipone had been aiding him, as in the successful prosecution last week of Robert Paulson, first of the defendants to be tried.

## Dear Abby

### Can't Teach Old Dog Tricks

Dear Abby: My husband has been a milkman for over 30 years. All he has ever been able to talk about are the women on his route. He says he knows more about some of them than their husbands do. He's the kind of person women like to sit down with and tell their troubles to. When other milkmen have been home for hours, my husband is still out listening to these mixed up women. He says it is all in a day's work and I should be more understanding. I'd like your views.

### Judge Asks For Motions In Rich Case

POTTSVILLE, Pa. (AP)—Judge Charles Staudenmeier yesterday asked for written motions on how three defendants should be tried in the Rich burglary case—separately or together.

Staudenmeier said he would rule Monday, the day before the scheduled beginning of the trials of Lillian Reis, 31-year-old Philadelphia night club operator; Ralph Staino Jr., 27, manager of the club, and John C. Berkery, 30, of Haddon Township, N.J.

Police contend Miss Reis mistreated the burglary and Staino and Berkery were among those who actually participated. John B. Rich, coal magnate whose home was burglarized in August, 1959, says \$20,000 in cash and jewelry was taken. Police say that up to \$478,000 in cash was stolen.

Alfred Filipone, deputy state attorney general, and Calvin Friedberg, assistant district attorney of Schuylkill County, want Staino and Berkery tried together, then Miss Reis.

Counsel for the defendants want separate trials.

Staudenmeier granted a commonwealth petition that police witnesses in the cases not be sequestered during the trials. Other witnesses are to be sequestered.

The commonwealth has threatened to withdraw from the case if three separate trials are held simultaneously as the judge directed earlier this week. It maintains that Friedberg alone is familiar enough with all details of the crime to prosecute. name. You are STILL Mrs. H. W. Smith.

NOT UNDERSTANDING

Dear Not: Clergymen and marriage counselors do not deliver milk by the quart, and milkmen shouldn't be collecting tears by the bucket. But if this has been going on for over 30 years, it's too late to change him.

Dear Abby: My 14-year-old boy came home from the barber shop with a MOHA. K. His head was shaved all over except for a strip in the center. Now I have had it! I put up with the D.A., the Swan, the Swirl and the Bull, but this is too much. Don't you think a barber should have a note from the mother before going ahead with those foolish haircuts? I ought to make my boy wear a stocking cap until this grows out.

DISGRACED

Dear Disgraced: Don't blame the barber. He was only following your son's instructions. If you can't rely on your boy's judgment, send a note with him, call the barber in advance, or go along and supervise.

Dear Abby: I became a widow but I would still like my mail addressed MRS. H. W. SMITH (not my real name.) I have been told that I should drop my husband's initials and use my own. Why? I still feel proud of my husband's name and want to continue to use it. Even the receptionist at the doctor's office corrected me and said in the future I should use MRS. MARY SMITH. I want to do the correct thing. What is it??

CONFUSED WIDOW

Dear Confused: You may continue to use your husband's

name. You are STILL Mrs. H. W. Smith.

Dear Abby: We have a girl in our room at school (8th grade) who has all the boys after her, but she is getting a bad reputation. She wears her hair in a pony tail and we have told her that she will be bald-headed before she gets to high school because that style makes your hair fall out if you keep it that way long enough. Also, she rolls up her skirts at the waist to make them shorter, and we could do other things, too, if we wanted to be catty. How can we let her know she is losing friends without giving her the idea we are jealous?

NOT JEALOUS

Dear Not Jealous: Tell her to watch for Dear Abby.

Yes, Abby will answer your letter personally if you write to Abby, care of The Daily Record and enclose a stamped, self-addressed envelope.

## Fish Free Of Cancer

HARRISBURG (AP)—Fish bred in state hatcheries are free of cancer, a Pennsylvania Fish Commission official said yesterday.

Dr. Albert S. Hazzard, assistant executive director, said continuous checks are being made on hatchery fish since epidemics of cancer were reported in western hatcheries last year.

"We haven't observed any cases of cancer since the U. S. Fish and Wildlife Service asked us last summer to make a report," he added in an interview.

A recent published report indicated that cancer in fish, especially trout, might be reaching epidemic proportions in many areas of the nation.
